

M Bret Blackford

DOB: 7/16/64 (59yrs)

Sex: Male

EKG Recording Overview

Kardia Advanced Determination:

Normal Sinus Rhythm

*Kardia Advanced Determination is done on Lead I.

Recorded on:	Thursday, November 2, 2023 at 6:52:32 PM
Heart Rate:	67 BPM
Duration:	30s

R-R Interval Plot

Detection of QRS locations allows Kardia AI to measure the distance between heartbeats or the RR interval. This can be used to review variability of heart rate, which may be useful in understanding heart rate variability, or to visually display irregularity in rate (such as in Afib).

Average Beat Plot

The average beat display is the average of all the normal, non-ectopic (extra/missed) beats in the ECG. An average beat display is intended to be a simple visual representation of one beat in a 30-second ECG.
